

3. Prioritize Key Customer Needs That Competitors Under-serve

Businesses can identify critical customer needs that are currently under-served or overlooked by competitors. By focusing on these areas, they can strengthen their value proposition and build stronger customer relationships.

Client Jobs and
Pains for VPC.

Focus Area

List the points that are
least addressed by other
products

STEP 2: Eliminate factors
oversupplied by competitors

Product		
A	B	C
Focus on points not on the list		

STEP 3: Focus on factors
under-supplied
and important to
customers

By following this 3 step differentiation
strategy, startups can enhance its value
proposition and chances of capturing a
market to achieve success
