

Money is often seen as the solution to all our problems, but it's not that simple. While it's true that not having enough money can cause stress and difficulty, having money doesn't automatically guarantee peace of mind.

There is life to be lived beyond money. This makes it important to understand how to manage money so that it doesn't cause problems and we can enjoy other aspects of life.

1. What Money is & isn't?

a. Money is an enabler

Money is an enabler that can make things easier in life.
