

But inn sab ki actual
mein koi need hai?
Let's see -"

- **An emergency fund** acts like a comfy cushion against those extra emergency expenses,
- **Your health insurance** provides coverage for unexpected medical bills and hospitalization costs, and
- **Life insurance** keeps your loved ones financially safe in case of your untimely death.

However, for these tools to work, you need to have a proper financial plan and understanding of each. In the upcoming sections, we'll explore the importance of each financial safety net component, how we set them up, and other info you need, to make smart decisions.

Let's Start?
