

1. What is it?

**IN CASE OF EMERGENCY
BREAK THE GLASS**

An emergency fund is a “must-have” part of any financial plan. It’s an amount of budget that you set aside specifically for unexpected expenses or financial emergencies. This includes all the worst scenarios such as losing your job, having to pay for an unwanted medical expense, or repairing your car or home etc. By establishing an emergency fund, you get funds available during times of financial runout, so you don’t need to obtain high-interest loans or sell investments at a loss and take a hit.
