

Once all the relevant documents are submitted to the TPA, they will review them and notify the Final Approved Claim Amount. To keep track of the progress, check the insurance company's online tracker regularly.

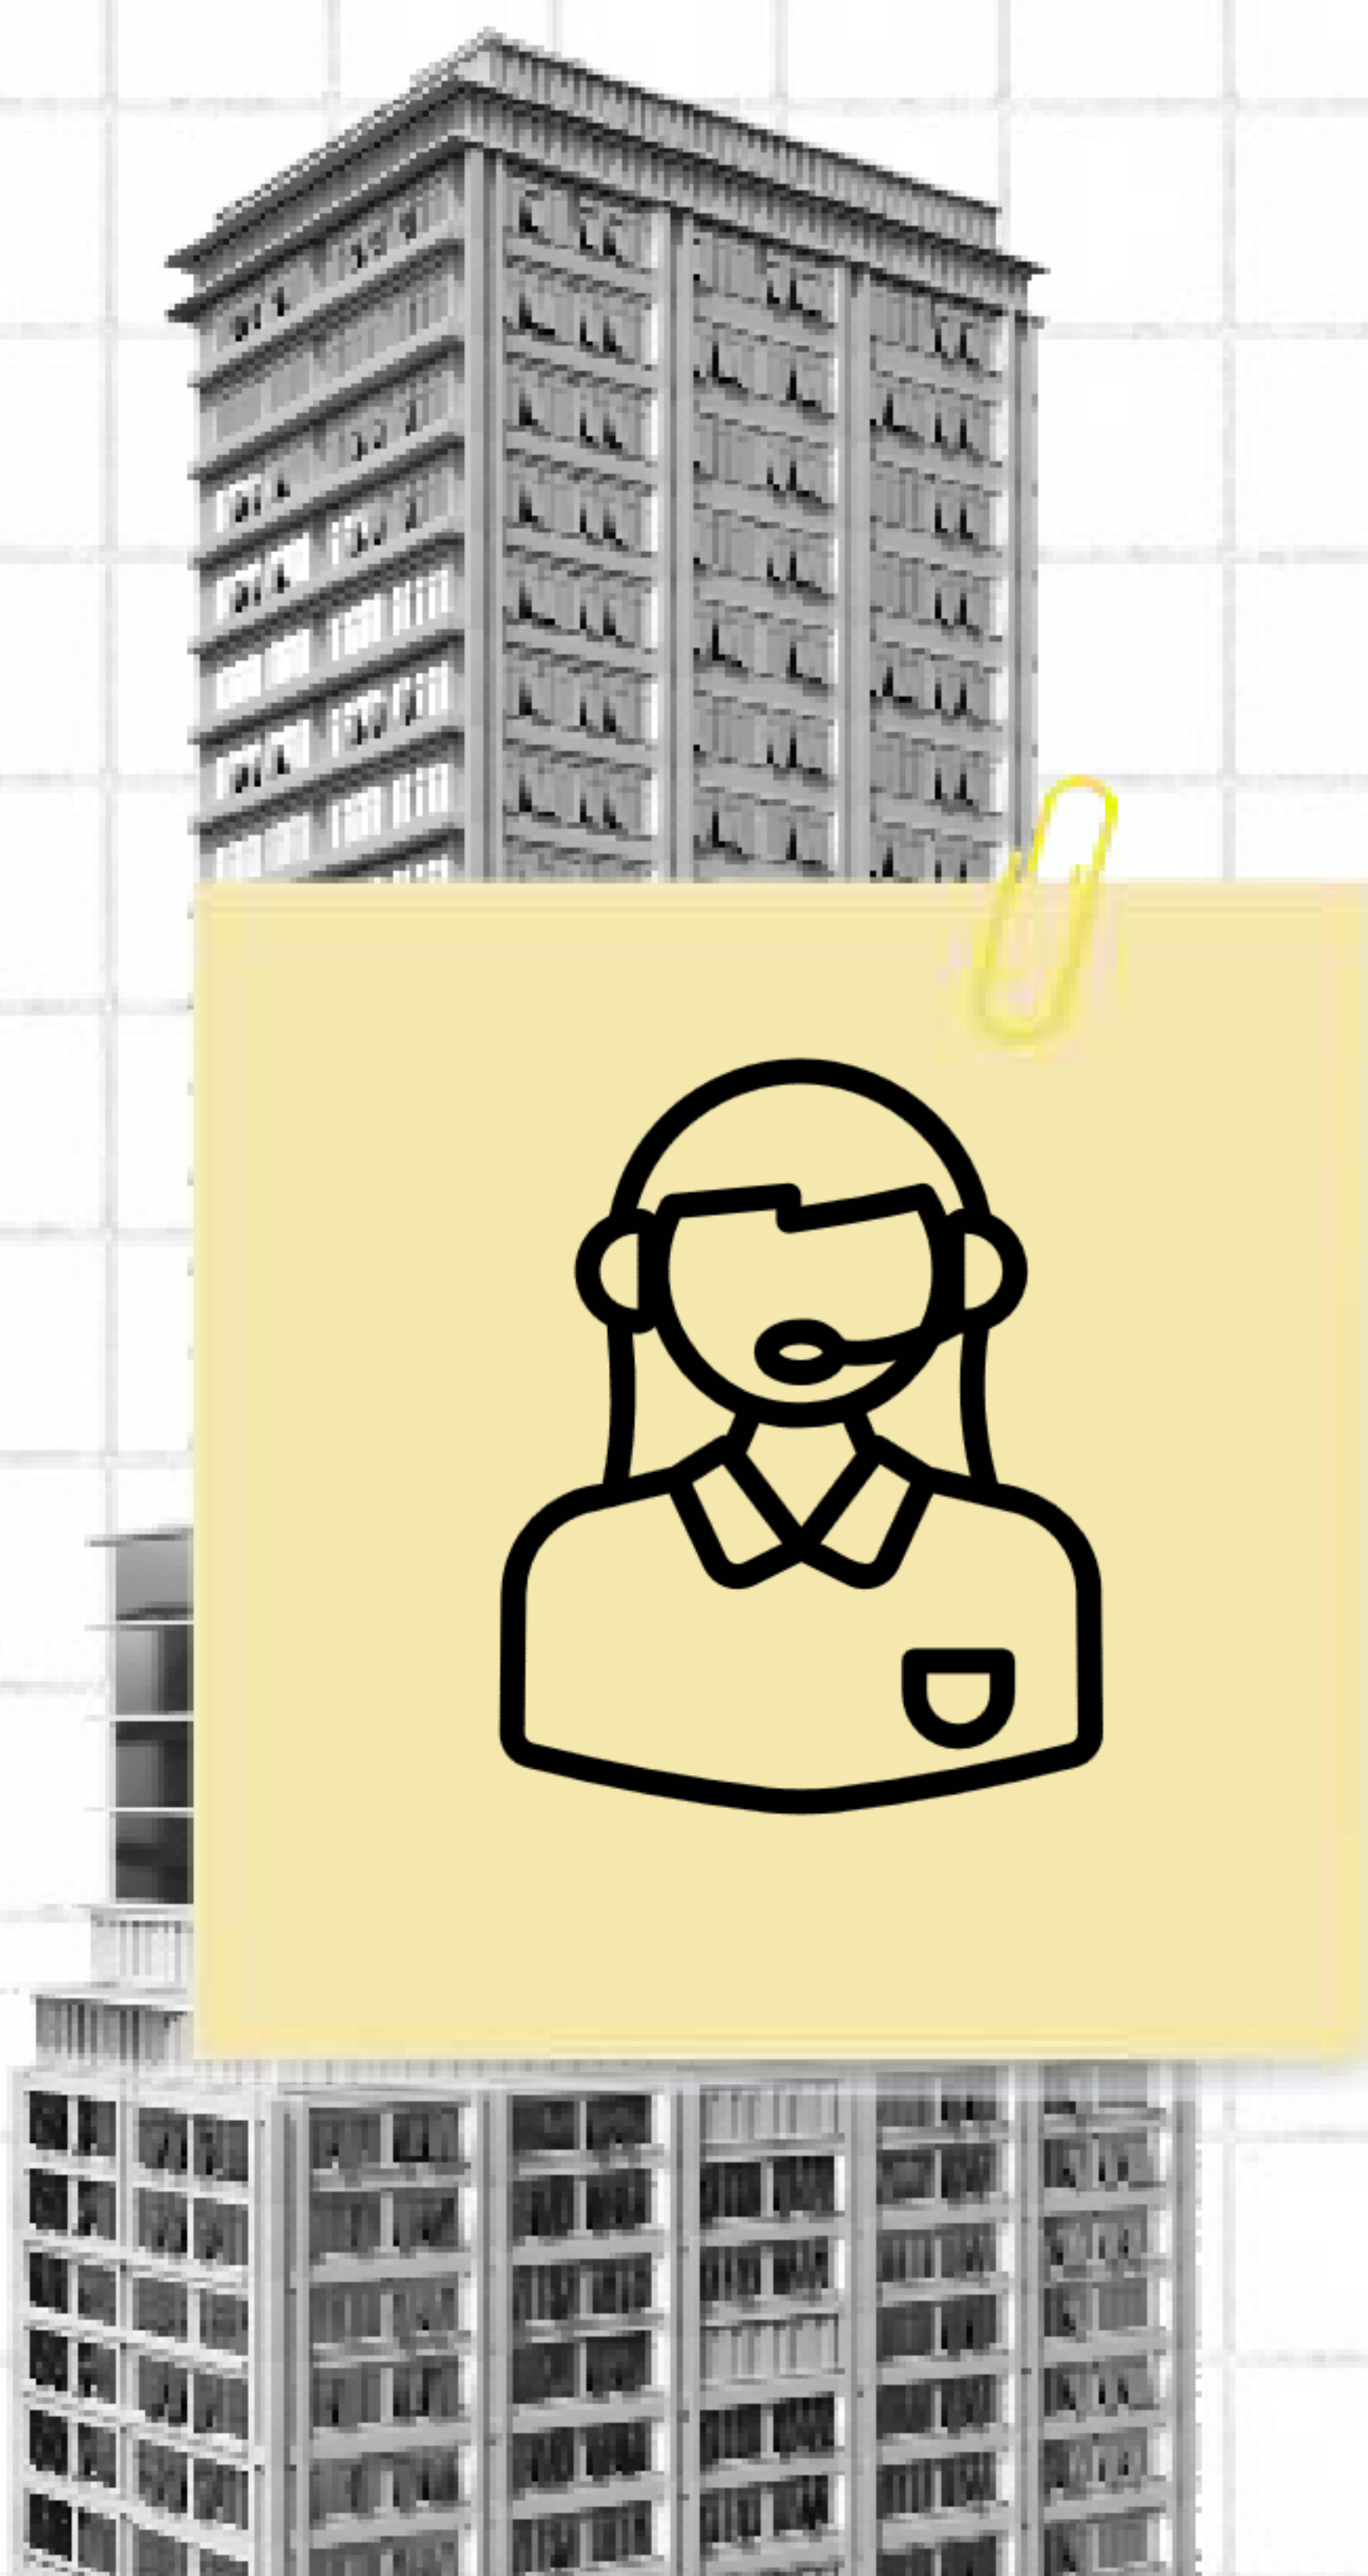

Incase of Emergencies

In case of an emergency, you should inform the TPA within 24 hours of being admitted to the hospital.

If you can, try to get approval from the insurance company while you're still in the hospital if you know the procedure and cost details. If that's not possible, you can file for reimbursement after you leave the hospital. Just remember to let them know about the situation as soon as possible, and if you can, get approval during your hospital stay itself.

In case the claim doesn't get approved

You can approach the customer care of the Insurer or the Office of the Insurance Ombudsman. The details of the Customer Care & Insurance Ombudsman are provided in the Annexure of the Policy Document.
