Returns greater than 1 year period are compounded annualized (CAGR). N.A. Not Available. For performance of other schemes managed by Roshi Jain, please refer page 112. Different plans viz. Regular Plan and Direct Plan have a different expense structure. The expenses of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses / commission charged in the Regular Plan. As NIFTY 50 TRI data is not available since inception of the scheme, additional benchmark performance is calculated using composite CAGR of NIFTY 50 TRI values from January 1, 1995 to June 29, 1999 and TRI values since June 30, 1999. For Performance of Direct Plan, refer page 114 to 119.

Assuming ₹ 10,000 invested systematically on the first Business Day of every month over a period of time. CAGR returns are computed after accounting for the cash flow by using XIRR method (investment internal rate of return) for Regular Plan - Growth Option. The above investment simulation is for illustrative purposes only and should not be construed as a promise on minimum returns and safeguard of capital.

^Past performance may or may not be sustained in the future. Since Inception Date = Date of First allotment in the Scheme / Plan. Load is not taken into consideration for computation of performance.
