3. Assets and Goals

- In the spreadsheet I created, you can set goals like saving for a vacation or a car. You can also track how much you've saved or invested in specific assets.

Assets Bifurcation

Goals Achieved (%)

Enter your savings goal here:

Fund Type	Opening Bal. (INR)	Yearly Goal (INR)
Car	₹1,000	₹5,000
Home	₹2,000	₹20,000
Emergency Fund	₹0	₹5,000
Retirement Fund	₹1,500	₹5,000
Vacation Fund	₹2,000	₹5,000

Enter your assets balance here:

Assets	Opening Bal. (INR)
Gold	₹1,000
Equity	₹1,000
Mutual Funds	₹1,000
FD	₹1,000
RD	₹1,000
SIPs	₹1,000
PPF	₹1,000

- When you start using the tracker, write down your starting/opening balance, which is the total amount you've saved or invested until now. Then write down the amount you aim to save in the whole year for a specific goal or asset. Then as and when you allocate your savings towards these goals you can track that.

This way, all your financial information will be well organized. You'll know the financial status of each goal and see how you're progressing.
