

THE COMPLETE FINANCIAL GUIDE FOR YOUNG COUPLES

- Can we ever afford to buy a house?
- Is it wrong to borrow this much money?
- Which of us should be the record keeper?
- Are credit cards a no-no?
- Do we really need life insurance?
- Should we play the stock market or stick to something safer?
- How do we teach our kids that money doesn't grow on trees?
- Why is it we never seem to have enough?

Questions like these can keep you awake at night—or worse. Without a solid financial and spiritual foundation on which to base sound decisions, problems—and not just money problems—tend to multiply in a marriage. And they come whether you're struggling on \$20,000 a year or "coasting" on a six-figure income.

Larry Burkett warns of the heartache that financial ignorance and mistakes can bring. Whether you are about to marry or are recently married, this valuable guide can help you avoid the pitfalls that result from mishandling your money. Solid biblical direction, practical advice, and years of "field testing" make this a book that won't gather dust on your shelf!
