

—ARTHUR B. LAFFER, chairman of
Laffer Associates, member of President
Reagan’s Economic Policy Advisory
Board, and creator of the Laffer Curve

As we hurtle into a new, decentralized economy, Burniske and Tatar have laid down something of immense importance: a coherent logic, a new science even, for investing in the assets that will define that coming world.

—MICHAEL J. CASEY, senior advisor to
the Digital Currency Initiative at MIT
Media Lab and coauthor of *The Age of
Cryptocurrency*

In this sweeping and lucid work, Burniske and Tatar make a compelling case that cryptoassets are foundational to the second generation of the Internet and represent a once-in-a-generation opportunity for the innovative investor. Required reading for anyone wanting to understand the future of finance, business, and more.

—ALEX TAPSCOTT, CEO of NextBlock
Global and coauthor of *Blockchain
Revolution*

Poised to be one of the most profound inventions in history, blockchain technology may change everything—just as the wheel and the Internet did. Chris and Jack will help you understand blockchains and the cryptoassets within them. If
