

to provide helpful historical context and a valuation framework that readers will find intellectually stimulating and illuminating for understanding this rapidly emerging world of cryptoassets.

—SPENCER BOGART, managing
director and head of research at
Blockchain Capital

Chris is at the forefront of the important work to better understand and analyze this emerging class of assets. In this book, he and Jack have encapsulated years of their thinking in an easy-to-digest manner.

—DAVID KINITSKY, VP of research and
innovation at Fidelity Labs

For the uninitiated, the world of cryptocurrencies is fraught with risks and pitfalls. No one should venture into this world without preparation. *Cryptoassets* explains, in simple to understand terms, the full paradigm of Bitcoin and its successor currencies, and it provides everything needed to explore this exciting world.

—JOHN MCAFEE, founder of McAfee
Associates

A thorough, balanced, and easy read. I would recommend this to anyone who considers building a portfolio of cryptoassets.

—RYAN SELKIS, former director of
investments at Digital Currency Group and
