

to apply fundamental valuation techniques, and practical tips to navigate the at-times turbulent markets.

—MATTHEW GOETZ, CEO of
BlockTower Capital

With investing, people always want to know about the next big thing. For curious minds who want to know about emerging technologies or even those who already have an understanding of blockchains, Chris and Jack leave no stone unturned. From the origins, to an explanation of how it works, to what's next, the reader will leave excited about the possibilities of investing money and time in this exciting adventure.

—TOM SZAKY, founder and CEO of
TerraCycle

This book is a must-read for any financial advisor who wants to stay on top of the shifting asset and technological landscape. Advisors would be wise to familiarize themselves with cryptoassets before their innovative clients approach them for an intelligent cryptoasset discussion!

—FRED PYE, president and CEO of 3iQ
Corp.

What will a technology that validates the order of entries in an electronic ledger without a centralized administrator bring? Time will tell. If you can't wait until then, read Chris and Jack's book. It will give you a great start.
