

IMPROVE YOUR CREDIT SCORE OVERNIGHT!

*Even if you have the worst credit in the world,
you can get almost perfect credit in 30 days!*

Get It

Get your credit reports! We spent pages and pages discussing credit reports and credit scores because that is where it all begins. There are entire books devoted to the subject of credit reports, and expensive financial seminars for which you could pay big bucks to learn what I just said: Get your credit reports! Why? Because that is what the financial world uses to judge you, and they are indeed passing judgment.

The credit score is your passport to a better tomorrow. If you follow the concepts discussed in these chapters, you could see a huge improvement in your credit score! A better score gets you better rates, which means lower payments. Paying less money and paying over a shorter amount of time means you keep the money, not the banks. Improving your credit score opens the door! You could improve your financial health and it can be miraculous!

Now you see that the process does not have to be complicated. Requesting a piece of paper (okay, several pieces of paper), looking over those papers, and acting on what you see there. It is as easy as one, two, three! You have heard commercials that say change your hair color or change your wardrobe and you can change your life. Change your credit score and you really can change your life!

Fix It

Get each of the three credit reports. You now know that it is quick and easy, and it is the first step on the road to debt free living! Review your report. Correct any errors! If there are any items that you need to dispute, start the dispute immediately! The credit reporting agency has thirty days to resolve the matter. If they can't within the thirty days, they have to remove that questionable item from your credit report. Make sure that they do!

If you can tackle one credit report at a time, go after the one showing the middle score. That is the score that the banks look at. It is your
