

The Strongman (and Woman)

There are hundreds of examples of ecstatic people who have used the *Debt Cures* methods, and real results happened immediately! Not only do these phone calls save you money today, they save you money for the life of that balance. Simply calling the credit card-issuing bank produces awesome results. Lowering your interest rate can cut your debt in half! Sometimes even more. That is instant gratification, and that is power.

Dennis had a credit card balance of about \$15,000, with an interest rate of 14.99%. One phone call, which kept him on the line for ten minutes, netted a new interest rate of 9.9%. Making only the minimum monthly payment, Dennis can pay off his balance about two years sooner and save close to \$5000! That is a great way to use ten minutes of your time.

Sometimes the savings are not as substantial as Dennis', but any dollar in your pocket will serve you better than paying it to the lending institutions.

Bettie: With one quick phone call, my rate was lowered from 12% to 6.9%! That will save me close to \$2500!

Ty: I called my credit card companies and all three raised my credit limits and dropped my interest rates! I now carry interest rates of 12%, 14.9%, and 15.3%. Not the greatest, but a real improvement. I will call back in a couple months and ask again!

James: I was on the phone with the customer service representative for about five minutes. She was very polite, and it was easy! My rate is now 12.99% – down from 17.99%! This can save me about \$1200! What a relief!

Jay: I had great credit, always paid my bills. I was shocked when I saw my interest rate went up for no reason. When I called, I was told that I had been late on a payment to another credit card – so
