

they could raise my rate! I was angry, but the customer service person gave me back my old interest rate. I will pay attention to my statement every month from now on.

Joanne: I can't believe it! My interest rate is now 8.9%! It was an outrageous 22%, and I was not even aware that it was so high! This lower interest rate will save me thousands! Maybe even \$10,000!

Max: My balance was not going down every month, it was going up! Fees, fees, fees! I had no idea. There was an annual fee, plus I was over my limit, and I didn't know it. They were charging me an overlimit fee of \$35 each month.

They waived the annual fee and the overlimit fee as a "courtesy." Now I know to pay attention to my monthly statement and check for fees! I will pay down my balance and call back to ask for a better interest rate!

Wallace: I was skeptical, but with one phone call, my late payment fee and my overlimit fee were removed. I am amazed.

Sherri: I had a promotional deal that ended. I called my credit card company and asked for the same rate, since I still had a balance. They could not give me the special 4.99% anymore, but instead of my rate going to 13.9%, they gave me a rate of 9.9%! This will save me close to \$1000!

Michael: I called up my credit card company and asked what my rate was – she said 12%. I asked what kind of rate specials they had, and I now am at 9.9%! They really do have specials. She told me to call back every month to see if they are offering anything better!

Denise: I have a very high balance on my credit card right now – over \$12,000. I know the interest alone was killing me. I was afraid to find out what the interest rate was, but I asked. I had a 13% interest rate, but the customer service person knocked it down to below 10% – anything under 10% is good for me right now.

Tori: I have an automatic payment set up each month from my checking account to pay on my credit card. My minimum
