

she would lose her house because the collector told her so. The collector broke the law by saying that, but he figured that Grace was naïve, and he was right. Barry was a proud man who believed if he did not pay off the collection agency, he was somehow less of a man. Martin was humiliated when the collector began calling his boss, his neighbors, and his family members. The collector asked them questions about Martin and his employment. It was a real disgrace to Martin when his mother and his sister called him, asking what was wrong, and why they were getting phone calls about him.

They lie,
threaten, and
intimidate.
Don't fall for it!

One puffed-up young man boasted about his skills as a collection agent and said that he was a master of his craft. He compared himself to a pirate on a pirate ship, and the debtor gets walked out on the plank. “You want to push them out on that plank as far as possible without making them jump.”

Modern Day Monsters

Here's what one other collector said to a lady: “You shouldn't be having children if you can't afford to pay their hospital bills.” He has no legal right to make such a comment! There is no reason in the world that any of us should put up with abuse like that. These collection gangsters think they can dish out whatever they want. Their warped sense of power from getting away with too much for too long has them strutting their stuff like they were some kind of villain from an action cartoon. Collectors will make illegal statements. They will bluff and outright lie. They will try to shame and humiliate you. They will threaten to sue you when they have no legal leg to stand on. Guess what? If they do, you can turn the tables and sue *them*!

Most people do not know this, and they take the awful abuse from the collection agency callers. The collectors specialize in making you feel guilty about not paying your debt. They play on your basic human decency, something they wholly lack. They know that you are a good, honest, law-abiding person, and they will use every dirty trick in the
