do it, and everybody can benefit. Anybody who has credit cards or any debt balances can make these phone calls and slash their debt. It does not matter if you have \$5,000, \$10,000, or \$50,000 in debt; you could reduce it virtually overnight! Some people have cut their debt totally in half! Some even more! It is painless, easy, and saves you thousands. Nothing gets you on the road to success like a small taste of what success feels like.

Ultimately, you are learning that you can be self-sufficient. You do not need to pay someone to make these calls for you. You can deal with your creditors and lenders and not have to pay any fees. Fees are what we are trying to get rid of! You can learn to rely on yourself, to trust yourself. That is important in all aspects of your life!

These self-help techniques can help you in all your financial dealings in the future. Reducing or eliminating debt is a great feeling. Knowing that you are the one who handled the pressure and stood up to the giant monster of greed is downright inspiring. Be inspired. You've earned it. Now take the courage you have acquired and get ready to build your wealth!
