

Rebuilding Credit

*"I get knocked down, but I get up again.
You're never going to keep me down."*

~ Chumbawamba

You may have been down. Your debt probably felt like an enormous burden that would never go away. But you do get up again. The banks and the credit card companies and the government aren't going to keep you down. You can break free from the bondage of debt and you can build lasting wealth.

The *Debt Cures* mentality is that of getting out of debt and building wealth, not some kind of hocus-pocus get-rich-quick scheme. It is not about trying to land your face on some television reality show and hoping that your fifteen minutes of fame will make you a millionaire. Getting out of debt and building wealth is not a fluke, and not terribly difficult. The methods you have read about in *Debt Cures* have helped thousands of people. You can join them.

Much of what has been covered to this point has been on debt. We have discussed many techniques and solutions to get you out of debt. Too many people associate the word "debt" with the word "bad." That is not the case. There is good debt and bad debt.
