

Imagine the Possibilities

So many people become down when they are in debt because they think they will never get out. Not true! You can get rid of your current debt and move on to a life of creating wealth. You can get a whole new start, a new financial profile! You can start from scratch!

With a good credit rating, you will be able to get the best interest rates on all your loans – your home, your car, and your credit cards! Once you get good credit back, you know how to keep it that way as well. I don't deal in magic fairy dust. There are many ways to rebuild your credit and get you in good standing again.

Being a person with a good credit report opens up the door to all kinds of possible ventures for you. Things you thought were out of reach can be available to you now. The phone will ring and you will not be afraid to pick it up. Collection calls are a thing of the past. You can pay for your son to go to baseball camp, and you can afford your daughter's braces. The little things that worried you are no longer a concern. You have the bills paid off, and have a feeling of control.

Maybe you have wanted to buy a house or get a different car. With your old credit score, you were offered the worst rates and terms. You have learned how to clean up your bad credit report, and now you can reap the rewards and keep building good credit.

Piggyback

This section must now be marked with a big asterisk. Things have changed since the first edition of this book went to print, but instead of deleting this section, I want you to know what existed and what has been taken away. It's one more maddening example of how the big shots don't want you to get ahead. Here's what I said about the piggyback method when the book was originally written (and then they changed the rules!):

“One of the easiest ways to improve your credit is again a little known secret that the banks do not want you to know. The more people who learn these tricks, the more people will be improving their credit scores, and we all know that is bad for business – the bank business, anyway.
