

Many television commercials and internet ads tout that debt consolidation is the way to go or that even bankruptcy is a good alternative. Don't do it. I have the insider secrets, and I am ready to share them with you. No longer will the banks and the credit card issuers and the lending companies make obscene profits off the backs of the American citizen. The consumer lending industry really has become like the Wild West where anything goes. They act as if they're above the law. I'm the most hated guy in corporate America for good reason. I hurt their profits. I am not against profit, but rape is against the law. They are not satisfied with healthy profits. They have risen to the level of outrageous and egregious fees, and we can fight back.

Freedom from Bondage

People like Ed and Sue, and me and you, we can fight back and take control. Take control of your debt and you take control of your life. It really is that simple. I'm going to show you how. Don't think that they hold invisible power over you. And don't think that debt is a four-letter word. Once you pay off your bad debt, you will learn how to use good debt to create wealth. Once the insider secrets are exposed, you will learn how to play their games and reduce your "bad" debt very, very quickly. Just about every millionaire in this country will tell you that using credit, good debt, helped them get rich. Not only do I want you to cure your debt, I want you to learn the secrets of good debt. You could become the next millionaire to tell your story.

The federal government is allowing the credit card companies and big banks to enslave people, but we don't have to live in bondage. We are now aware that trust is a thing of the past. The Enron scandal certainly taught us that. Big business only looks out for big business. Corporate greed and accounting games seem to be the norm, instead of the exception. Providian, the credit card company that paid millions to settle fraud charges, didn't even make headline news. I'm not sure exactly what *cahoots* smells like, but when the government and the consumer lending industry are in *cahoots*, I know that it stinks.

We have a lot to cover in this book, but rest assured, curing your debt will cure your life. Let me show you the way out of the trap and the path to freedom. The following pages will show you how to eliminate
