

I am confident that you will steer yourself in the direction away from old debts, and the debt collection piranhas, and instead move toward the direction of magnificent wealth. You do not have to be wracked with fear, guilt, stress, anxiety, eating distress, weight gain, weight loss, thinning hair...well, actually, maybe thinning hair is something you have to live with, but you can see what I am trying to say. Eliminating your debt lifts the heaviness that can hold you down. Eliminating your debt lifts your spirits! The collection trolls can go back to living under the bridge or wherever it is that they came from. You can start living with a new confidence, refreshed and untouched by the worries of bad debt.

If you live in a state where the number of years for the statute of limitations on debt is not an immediate debt elimination strategy for you, don't be dismayed! There are *Debt Cures* methods with which I believe virtually everyone holding this book can reduce their debt significantly. No matter how much debt you have, or how long you have had it, you could cut your total debt payments in half! Maybe even two-thirds, or perhaps even 75%!

Straightforward techniques. No complicated statutes or tables. No smoke and mirrors. These solutions are so easy that every person in America who has debt can and should use these simple strategies.

This is not the point in the book where you go for a snack. This is the point where you turn the page and discover how you can get out of debt!
