

Kendra was starting to feel a little panicked. She did not want to be bothered by a collection agent, and she knew her account was severely delinquent. Her children and her mom needed a peaceful home, so Kendra took a deep breath and picked up the phone.

She explained her situation to the customer service rep and had to repeat it all again to a manager. She offered to pay the balance, without all the extra charges that had accrued. Her next-door neighbor, who is an accountant, wrote a short two-line letter on his stationery, stating Kendra's facts. Her net worth showed that she would not be able to pay off the interest and fees that had piled up. She barely was able to pay the original debt of about \$900. Kendra was shocked when her offer was accepted! Kendra now tells everyone that the methods that *Debt Cures* prescribes really are a prescription for success!

Another reader, Sam, got into serious debt when a friend borrowed money on his credit line to open a flower shop. His interest rate skyrocketed to an out-of-control 27%. After a few phone calls, he got his rate down to – wait for it – 0% for 5 months! And after that, his rate only rose to 10%. After all was said and done, Sam used *Debt Cures* to pay only 20 cents on each dollar he owed!

Another reader wrote in to say that *Debt Cures* was one of the most useful books she has ever read, and she was able to get her credit card rates knocked down from 31% to 10% and helped her friend make the call to get a 15% rate down to 1%. She states, "It is amazing. I now have a mission to accomplish."

You too can join this mission. You never know until you try, and you have absolutely nothing to lose. So make some calls and let me know what happens! It could go something like this:

Credit Card Company: Thank you for calling Outrageous Credit Card Company; this is customer service. How can I help you today?

You: I need to talk to someone, maybe the manager, about my credit card balance. There is no way that I can pay it and my amount due has doubled because of all the fees you guys have piled on. I really need to discuss it.

CCC: This is the manager, and what are you suggesting?
