

showed, each had different circumstances and required unique solutions. But one common denominator was the need for accurate records and control over their spending.

In solving financial problems, accountability is a key ingredient that cannot be overemphasized. The value of consistent accountability has been proven through Alcoholics Anonymous, Weight Watchers, Celebrate Recovery, and small group Bible studies. The knowledge that someone will be checking to see if the checking account is balanced and the creditors paid helps to establish discipline.

Developing a support group in the community where you live can be a great asset to others who need help and accountability as well. I know of many groups that meet as often as once a week to discuss their common problems and try to come up with practical solutions. They also study what God's Word has to say about the subject of finances and hold each other accountable to apply those principles.
