

PREFACE TO THE 2010 EDITION

Larry Burkett's desire was to teach Christians what God's Word says about finances and to show them how to practically apply these principles to their lives.

From 1977 when he founded Christian Financial Concepts—now Crown Financial Ministries—to the present, countless books have been written on the subject of money, seminars have been taught, and an abundance of information is now readily available through the Internet. Still, Larry's basic principles hold true.

Because today's financial climate has changed since Larry first wrote *Debt-Free Living*, we thought it worthwhile to revise and update his enduring work. We have added a couple of new stories, reworked the original ones to reflect contemporary life, updated information, and more. A new section on books and online resources is included.

In keeping with the author's first-person voice and his teachings, we offer you this fresh look at Larry Burkett's *Debt-Free Living*.
