

To explore LLMs, navigate Hugging Face's website and the model's page.

Page that hosts LLM models

The screenshot shows the Hugging Face homepage. At the top, there's a search bar and navigation links for Models, Datasets, Spaces, and Posts. A sidebar on the left lists various tasks like Image-Text-to-Text, Visual Question Answering, and Document Question Answering. The main content area displays a list of models, with a callout box highlighting several popular ones:

- CohereForAI/c4ai-command-r-plus**: Text Generation, Updated 5 days ago, 134k downloads, 1.05k likes.
- mistral-community/Mixtral-8x22B-v0.1**: Text Generation, Updated 3 days ago, 21.1k downloads, 459 likes.
- NexaAI/Octopus-v2**: Text Generation, Updated 2 days ago, 9.05k downloads, 665 likes.
- openbmb/MiniCPM-V-2**: Visual Question Answering, Updated 3 days ago, 365 downloads, 155 likes.
- HuggingFaceH4/zephyr-orpo-141b-A35b-v0.1**: Text Generation, Updated 2 days ago, 1.19k downloads, 150 likes.

A callout box also indicates **6 lakh plus models on hugging face**.

Chat inference

The screenshot shows the model page for CohereForAI/c4ai-command-r-plus. The left sidebar contains the 'Model Summary' and 'Developed by: Cohere and Cohere For AI'. The main content area displays the 'Inference API' interface, which includes a chat input field and a 'Send' button. A callout box labeled **browser to search** points to the URL in the browser's address bar. Another callout box labeled **Large language model** points to the 'C4AI Command R+' text in the model summary. The chat interface shows a sample message: 'Hey my name is Mariama! How are you?' and a response field with the placeholder 'Your sentence here...'. A note at the bottom states: 'Model requires a Pro subscription; check out hf.co/pricing to learn more. Make sure to include your HF token in your query.'

In the screenshot above, you can check the LLM models' codes. There are more than 2,000 LLMs today, big and small. You can see that Hugging Face alone currently hosts more than 6 lakh such models. Whenever you want to explore one of these models and see how they work, you can just find its page on Hugging Face, and you will see a chat interface here.
