

4. **Phone Deals Done:** We wrapped up some important deals for smartphone licensing in Q1, which means steady sales for the future.
5. **Healthy Finances:** We generated nearly EUR 1 billion in cash flow in the first quarter, showing strong financial health.
6. **Future Outlook:** We're still on track to meet our financial goals for the year, maintaining our previous outlook.

Now, let's understand what ChatGPT's ability to classify text means. You have this data with me. You want to understand the sentiments of the customers who made each of these complaints. You want to classify them as positive, negative, and neutral.

Classify the complaints as positive, negative, and neutral

	A
1	1. "Can you help me understand my current plan details?"
2	2. "I'm experiencing some issues with my service, can you assist me?"
3	3. "How do I set up call forwarding on my phone?"
4	4. "I want to upgrade my data plan, what are my options?"
5	5. "What's the process for cancelling my subscription?"
6	6. "I'm impressed with the speed of my internet connection, thank you!"
7	7. "I'd like to change my billing address, how can I do that?"
8	8. "Is there a way to monitor my data usage in real-time?"
9	9. "I'm having trouble accessing my voicemail, could you troubleshoot this for me?"
10	10. "I'd like to inquire about international calling rates."
11	11. "What steps should I take if I lose my phone?"
12	12. "I have a question about the coverage in my area."
13	13. "The customer service representative I spoke to was very helpful, please pass on my thanks."
14	14. "I'm interested in bundling my services, what packages do you offer?"
