

Making Standard Contracts

Creating a standard contract using AI can be a straightforward and practical solution for freelancers or small businesses needing lawyer access. Here's how you went about it. You started with a clear prompt in ChatGPT, providing context about your profession and the type of contract you need.

Creating a standard contract using Chat Gpt

ChatGPT Auto ▾

**Provide context
about profession
and contract type
in prompt**

I am a freelancer helping companies by providing freelance accounting services I would like make a standard contract which I can enter with my clients and specify my scope of work. Also I need to make sure their data is safe and I will complete my work diligently. Can you help me make a standard contract. My company name is Skillopedia LLP, address is Khiranagar, B 10 31 Santacruz west, Mumbai 400054. My PAN number is AQEPM5 _____

With this information, ChatGPT quickly drafted a template for me. It created a professional-looking document, starting with an introductory section that includes placeholders for your company and client names, building a solid foundation for an accounting agreement.

ChatGPT quickly drafts a contract outlining several essential sections

Here's a draft for your standard freelance accounting contract:

Introductory Section

FREELANCE ACCOUNTING SERVICES AGREEMENT

This Agreement is made and entered into as of the ___ day of ___, 20___, by and between:

Skillopedia LLP, a company registered under the laws of India, with its place of business located at Khiranagar, B 10 31 Santacruz West, Mumbai
PAN No: AQEPM5839U (hereinafter referred to as "Client")

The contract then outlines several essential sections, such as:
