

The free version lacks data post-January 2022; web access enables comparison

At the time, these were the latest phones available, and they were released after January 2022, the version’s last update. Without web access, the response would not have been accurate, and ChatGPT would not have given the sources to verify the information.

Without web access, ChatGPT can’t provide accurate, updated info.

Chat GPT’s response without web access

|                  |                               |                           |
|------------------|-------------------------------|---------------------------|
| 5G               | Yes                           | Yes                       |
| Charging         | Lightning port, fast charging | USB-C port, fast charging |
| Water Resistance | IP68                          | IP68                      |
| Dimensions (mm)  | Not specified yet             | Not specified yet         |
| Weight (g)       | Not specified yet             | Not specified yet         |

Please note that some details might change as both phones are not released yet, and these specs are based on leaks and rumors.

With web access, the response is far more accurate, and you have sources to verify the information.

With web access, responses are accurate

Answer

Here’s a comparison between the iPhone 14 and the Samsung S24 Ultra in a tabulated format:

| Feature          | iPhone 14                               | Samsung S24 Ultra                      |
|------------------|-----------------------------------------|----------------------------------------|
| Display          | 6.1 inches, 1170 × 2532 pixels          | 6.8 inches, 1440 × 3120 pixels, 120 Hz |
| CPU              | Apple A16 Bionic                        | 3.3 GHz, Octa Core Processor           |
| RAM              | 6GB (expected)                          | Not specified                          |
| Storage Options  | 128GB, 256GB, 512GB                     | Not specified                          |
| Rear Cameras     | Triple 12MP Ultra Wide, Wide, Telephoto | Not specified                          |
| Front Camera     | 12MP                                    | Not specified                          |
| Operating System | iOS 16                                  | Not specified                          |
