

9.7 How have you been using ChatGPT so far?

Now, pause and write down your use of ChatGPT. You are to write about the tasks you have been doing through ChatGPT. Then, reflect upon it.

Also, note where you spend time writing things. Then, ask yourself if you can automate these tasks using ChatGPT or other AI tools. If the answer is yes, go ahead and write your prompt. If the answer is no, maybe it is time to check whether you can do it. This exercise will help you identify areas for improvement in productivity and efficiency.

Reflection on an Individual Use of ChatGPT
