

Since the data was in cell A5, this formula could not be used. So, enter this prompt:

My data is in cell A5.

ChatGPT generated new formulas

ChatGPT

If your data is in cell A5 instead of A2, you can adjust the formulas accordingly. Here are the modified formulas:

For Flat Number:

excel

Copy code

```
=TRIM(MID(A5,1,FIND(",",",",A5)-1))
```

For Address:

excel

Copy code

```
=TRIM(MID(A5,FIND(",",",",A5)+1,FIND(",",",",A5,FIND(",",",",A5)+1)-FIND(",",",",A5)-1))
```

Then, copy the formulas one by one into the appropriate cells.

	A	B	C	D	E	F	G
1	Address 1	Address 2	Address 3	Address 4	City	Pin code	Full address
2	Khimnagar	B 10 31	Santacruz west	SV road	Mumbai	400054	Khimnagar B 10 31 Santa
3							
4		Flat number	Address	Pin code			
5	Flat 101, 123 Main Street, Springfield, 12345	Flat 101	123 Main Street				
6	Flat 202, 456 Elm Avenue, Lakeside, 23456	Flat 202	456 Elm Avenue				
7	Flat 303, 789 Oak Lane, Rivertown, 34567	Flat 303	789 Oak Lane				
8	Flat 404, 987 Pine Road, Mountainville, 45678	Flat 404	987 Pine Road				
9	Flat 505, 654 Maple Drive, Meadowview, 56789	Flat 505	654 Maple Drive				
10	Flat 606, 321 Cedar Court, Sunnyside, 67890	Flat 606	321 Cedar Court				
11	Flat 707, 876 Birch Street, Hillcrest, 78901	Flat 707	876 Birch Street				
12	Flat 808, 543 Willow Lane, Brookside, 89012	Flat 808	543 Willow Lane				
13	Flat 909, 210 Ash Avenue, Valleytown, 90123	Flat 909	210 Ash Avenue				
14	Flat 1010, 987 Cherry Lane, Beachside, 01234	Flat 1010	987 Cherry Lane

You may be expected to carry out these basic spreadsheet operations in a work environment. Let's see how to perform some advanced spreadsheet operations using the paid version of ChatGPT. Since the free version does not have data analysis capabilities, the paid version is used. Now upload the file named, 'Sample data superstore (4).xlsx.'
