

On Leonardo.ai, you can enter style directions in the prompts themselves. Suppose you ask the tool to make a 3D Pixar-style image of a dog wearing a suit, sitting on a beach, and having a coffee. This is what Leonardo.ai was able to generate for me.

Look at this. How cool is this? Looks like a 3D Pixar art cartoon-style image. It's just amazing.

Now, let's see what happens. Ask this tool to generate a tall, slender brown woman with curly hair and large, expressive brown eyes who is looking back at the viewer over her shoulder.
