

11.2.7 DALL-E

DALL-E is an image generation tool available through ChatGPT's paid version. Although DALL-E may not be the most advanced tool, it can still generate some effective images based on user prompts. Let's explore DALL-E capabilities by looking at the results when you prompted it to generate an image of an SUV off-roading on a highway.

Prompt : generate an image of an SUV off-roading on a highway.

So, you see that although OpenAI's image generation tool is also capable, it does not deliver the same quality as Stable Diffusion, which has specialised AI image generation.

There are numerous AI image-generation tools out there. You should explore the strengths and weaknesses of each model by experimenting with the various parameters in your control. Here's a list of AI image-generation tools that you recommend.
