

Save this image and try another prompt saying, 'A waterfall shot in the middle of a jungle.'

You downloaded both images on your computer by simply right-clicking, choosing 'Save image as...' and entering an appropriate name before saving it.

Then, you want to animate this image, so go to RunwayML and create a free account.

Once you have made a free account, you can upload any image. You simply open the 'All assets' link.

Open the 'All assets' link
