

Once you did this, Veed.io actually generated subtitles automatically. Then, it also incorporated them in the video.

In the above screenshot, you can see that when talking in the video, you can see subtitles with highlights. You may have seen this kind of subtitle being used by Alex Hormozi and some other tools some other TikTokers, and now Instagram Reel creators.

They don't do it manually. It is all done by AI. Just in case you don't like the style and you want to change the style, you do so by clicking the 'Styles' button.
