

Exploring AI Tools Beyond ChatGPT

EXERCISE

Instructions:

Read the scenario and craft an optimized prompt using AI tools for different creative and productivity tasks.

Scenario:

You are working on a project that requires AI tools beyond just text generation. You need assistance with creating presentations, generating images, voiceovers, or even video content.

Task:

Write a structured prompt that helps an AI tool generate content for your specific task. Your prompt should:

1. Specify the type of AI tool needed (e.g., text-to-image, text-to-voice, text-to-video)
2. Define the content you need (e.g., a marketing video, AI-generated presentation, realistic voiceover)
3. Set expectations for output format and style

Write your optimized prompt below:

Reflection:

How can using multiple AI tools together improve efficiency and creativity in different industries? Give one example.
