

updated style.css

```
# styles.css > ...
45  ul {
46  }
47
48  li {
49    padding: 10px;
50    background: #eee;
51    border-bottom: 1px solid #ddd;
52  }
53
54  li:last-child {
55    border-bottom: none;
56  }
57
58  li.completed {
59    text-decoration: line-through;
60  }
61
62  button.delete {
63    margin-left: 10px;
64    background: #d9534f;
65  }
66
67  button.delete:hover {
68    background: #c9382c;
69  }
70
71
72
```

updated app.js

```
JS app.js > ...
1  function addTask() {
2    // Create the list item
3    let li = document.createElement('li');
4    li.textContent = newTask;
5
6    // Create the delete button
7    let deleteBtn = document.createElement('button');
8    deleteBtn.textContent = 'Delete';
9    deleteBtn.className = 'delete';
10   deleteBtn.onclick = function () {
11     li.parentNode.removeChild(li);
12   };
13
14   // Add the toggle complete functionality
15   li.onclick = function (event) {
16     // Prevent the toggle when clicking the delete button
17     if (event.target === deleteBtn) return;
18     this.classList.toggle('completed');
19   };
20
21   // Append the delete button to the list item
22   li.appendChild(deleteBtn);
23
24   // Append the list item to the list
25   document.getElementById('tasksList').appendChild(li);
26
27   // Clear the input field
28   input.value = '';
29 }
30
31
32
33
```
