

FINANCIAL GOALS: WORDS VERSUS DEEDS

Many high-income-producing PAWs and UAWs share similarly stated goals concerning wealth accumulation. For example, more than three-fourths of both groups indicated they had the following goals:

- ◆ To become wealthy by the time they retire
- ◆ To increase their wealth
- ◆ To become wealthy through capital appreciation
- ◆ To build their capital while conserving the value of their assets

But having a set of stated goals does not necessarily mean that one is committed to achieving them. Most of us want to be wealthy, but most of us do not spend the time, energy, and money required to enhance our chances of realizing this goal.

TIME ALLOCATION

Most PAWs agree with the following statements, while most UAWs disagree:

- ◆ I spend a lot of time planning my financial future.
- ◆ Usually, I have sufficient time to handle my investments properly.
- ◆ When it comes to the allocation of my time, I place the management of my own assets before my other activities.
