

occupational classifications, since different occupational groups tend to generate different levels of income and net worth.

Let's look at a survey of gift receivers and nonreceivers from all economic backgrounds, in their early forties to mid-fifties. Examine the numbers given in [Table 5-2](#).

TABLE 5-2
RECEIVERS VS. NONRECEIVERS OF CASH GIFTS: WHO HAS MORE WEALTH/HIGHER INCOME?

OCCUPATIONS	HOUSEHOLD NET WORTH %	RANK	ANNUAL HOUSEHOLD INCOME %	RANK
• Accountant	57 ¹	10th	78 ²	7th
• Attorney	62	9th	77	8th
• Advertising/Marketing Sales professional	63	8th	104	1st
• Entrepreneur	64	7th	94	2nd
• Senior Manager/Executive	65	6th	79	6th
• Engineer/Architect/Scientist	76	5th	74	10th
• Physician	88	4th	75	9th
• Middle Manager	91	3rd	80	5th
• College/University Professor	128	2nd	88	4th
• High School/Elementary School Teacher	185	1st	92	3rd
• All Occupations	81.1	—	91.1	—

¹For example, households headed by accountants who receive cash gifts from their parents have 57 percent of the net worth of those in the same occupational category who do not receive gifts.

²For example, households headed by accountants who receive cash gifts from their parents have 78 percent of the annual household income of those in the same occupational category who do not receive gifts.

Note that in eight of the ten occupational categories, gift receivers have smaller levels of net worth (wealth) than those who do not receive gifts. For example, on average, accountants who are approximately fifty years of age and receive cash gifts from their parents have only 57 percent of the net worth of accountants in the same age group who do not receive
