Actually, there is considerable financial risk in being a business owner. But business owners have a set of beliefs that helps them reduce their risk or at least their perceived risk:

- ◆ I'm in control of my own destiny.
- ◆ Risk is working for a ruthless employer.
- ◆ I can solve any problem.
- ◆ The only way to become a CEO is to own the company.
- ◆ There are no limits on the amount of income I can make.
- ◆ I get stronger and wiser every day by facing risk and adversity.
