

Switch Teams and Playbooks

A man wrapped up in himself makes a very small bundle.

~ BENJAMIN FRANKLIN

THE FASTLANE ROADMAP: THE PLAYBOOK FOR WEALTH

Losing teams use losing playbooks. Play for a losing team and you're stuck using their losing playbook. To win, switch teams and use the winner's playbook. The Fastlane roadmap creates financial winners because it uses a winning formula rooted in unlimited and controllable mathematics. Where is this playbook and how do you get it? You have to forsake the ideology of the majority and *become a Slowlane traitor*.

SWITCHING TEAMS AND THE PLAYBOOK

From the day you were born, you were baptized to play for *Team Consumer*, from the Barbie Doll and the Tonka Truck to the *Star Wars* action figures. You've been conditioned to demand: to want products, to need products, to buy products, and of course, to seek out the cheapest of those products.

The correlation between the Slowlane and the Sidewalk is this: Jobs exist to facilitate the consumer process. You become a brand manager for a consumer products company, you become an insurance agent, you become an accountant for some corporation—it's consumer driven and focused to move goods and services into the hands of consumers. This "consumer" focus is like a gravitational pull to keep you amenable to anti-Fastlane thinking.
