BE A PRODUCER: LEVERAGE THE BUSINESS OF A SYSTEM

To switch teams and become a producer, you need to be an entrepreneur and an innovator. You need to be a visionary and a creator. You need to give birth to a business and *offer the world value*. While the centrist theme to the Slowlane is a job, *in the Fastlane, it's a business*. Yes, good old self-employment. I know, not breaking news for “get rich” books, however, it's important to note that most small business owners are light years away from a Fastlane and dicking with Slowlane metrics. *Some businesses masquerade as jobs!*

A Fastlane business is the key to the Fastlane wealth equation ($Wealth = Profit + Asset Value$) because it unlocks LEVERAGE, a new set of wealth variables that are unlimited and controllable, whereas in the Slowlane, they are limited and uncontrollable. Yes, ULL is swapped for CUL.

For example, the sale of this book extricates me from the Slowlane wealth equation and its universe. This book puts me into the Fastlane universe, which is governed by its wealth equation of NET PROFIT and ASSET VALUE. This book is a business system that has unlimited leverage in both time and money!

First, it *survives time* and it is capable of earning income long after my original time investment. This book effectively transfers the act of income generation from me (the human asset) to the book (the business asset).

From start to finish, this book cost roughly 1,000 hours of my time. If I sell 100,000 books at \$5 profit each, I earn \$500,000, or roughly \$500 per hour invested. If I sell 500,000 books, I will earn \$2,500 per hour invested. The more I sell, the greater the return on my original time investment, as I already paid the time. Imagine 10 years from today I sell one copy of this book. Suddenly I earn \$5 from a time investment I made years ago!

But it gets better! If I guest-speak on a radio show for 10 minutes and that appearance yields 1,000 book sales, this 10-minute investment yields \$5,000 in income (1,000 books $\times$ \$5 profit) and yields a return on my time at \$30,000 per hour. Can you get rich trading your time for \$30,000 per hour? Yes you can, and awfully fast.

You see, when you unlock yourself from the handcuffs of time imposed by the Slowlane roadmap, you assign income to a system that leverages unlimited mathematics, and fast wealth becomes possible. *The variables in my wealth universe can be controlled and leveraged.* In the next chapter you will discover why the Fastlane can deliver financial freedom and wealth faster than any mutual fund can.
