

The Real Law of Wealth

Try not to become a man of success, but a man of value.

~ ALBERT EINSTEIN

EFFECTION, NOT ATTRACTION

The Law of Efection. Nope, not a misprint. Mathematics is the transcendent language of the universe. It cannot be controverted nor debated. Two plus two equals four. The number 10 million will always be greater than 24. These statements are facts and not subject to interpretation by some mystical theory of philosophy. *Math is law.* “Secrets” and mystical philosophies are not.

If you want to get rich, start observing the true law of the universe—MATH—and not some hocus-pocus law that can neither be proved nor documented. Singing positive platitudes around the campfire isn’t going to make you rich. Oh, don’t get your panties in a wad; I know the Law of Attraction sounds great and has practical applications.

For those not familiar with The Law of Attraction (“LOA”), it’s a mystical philosophy that states you become what you think and that your conscious and unconscious thoughts make your reality. The LOA contends that if you know exactly what you want, ask the universe for it, see it coming, then you will eventually receive it. Think riches and you will have riches! Sounds easy, huh?

I won’t hide my candid sacrilege to the LOA crowd; I think it’s a bunch of baloney orchestrated to sell books to those who think “thinking” will make you rich. In fact, the LOA is nothing but old principles of belief and visualization repackaged and remarketed for mass consumption. Who are the true Fastlaners? The LOA marketers!
