

simply aren't making much of an impact, and your bank account will represent that same fact. The amount of money you have (or don't have) is a direct reflection on the amount of value you have provided (or not provided).

EFFECTION IS SCALE, MAGNITUDE, OR BOTH

To exploit the Law of Effection, your business needs to make an impact of either scale or magnitude, or both. Within our Fastlane wealth equation, "scale" and "magnitude" are implicit to our "net profit" variable.

$$\text{NET PROFIT} = \text{Units Sold (Scale)} \times \text{Unit Profit (Magnitude)}$$

An example of **SCALE** is reflected on our Fastlane roadmap via the profit variable in our wealth equation: units sold. If you sell 20 million pens and make 75 cents profit on each, you just earned \$15 million. This is having an impact on **SCALE** with tiny **MAGNITUDE**. Obviously, selling a writing pen doesn't have a major impact on anyone's life. The wealth is transmuted via **SCALE**, not magnitude.

Conversely, magnitude is having a great impact on a few and within our Fastlane wealth equation is reflected in **UNIT PROFIT**. Price always reflects magnitude. If you sell a product that's worth \$50 million, you have access to magnitude. For example, if you owned an apartment complex with 400 units and profit \$100 from each unit, you'd generate \$40,000 in monthly income. Because you are providing housing for 400 families, you are making an impact of magnitude, not scale. Shelter has magnitude. Activities of magnitude have higher profit potential with smaller scales. Magnitude is always reflected by an item's price. High value = high price = high magnitude.

If you can combine both scale and magnitude, we won't be discussing millions but billions. Donald Trump makes an impact on both magnitude and scale and therefore is worth billions.

Scale creates millionaires. Magnitude creates millionaires. Scale and magnitude creates billionaires.

FOLLOW THE MONEY!

Unfortunately, the word "law" is loosely tossed around to represent concepts that aren't really laws. The Law of Attraction isn't a law but a theory. The word "law" is absolute. It works 100% of the time. When you drop a watermelon from your tenth-floor dorm window, the Law of Gravity takes over—the watermelon falls to the ground every single time. The outcome is a 100% certainty.

Unfortunately, positive thinking and visualization don't work with 100% certainty. Belief and manifestation aren't absolute so they can't be classified as laws. However, the Law of Effection is absolute.

Show me any self-made billionaire and I will show you a person who has touched
