

Life's Steering Wheel

*Your life is the sum result of all the choices you make,
both consciously and unconsciously.*

*If you can control the process of choosing,
you can take control of all aspects of your life.*

You can find the freedom that comes from being in charge of yourself.

~ ROBERT F. BENNETT

THE LEADING CAUSE OF POORNESS

If poorness were an illness, take a guess as to its cause. Of course, lack of money. But is that a cause or a symptom of the underlying problem? Lack of education? Lack of opportunity, positive role models, or determination? Nope. Those are all symptoms. If you retrace poverty's footprints you will find that poorness starts at the exact same place: *choice*. Poor choices are the leading cause of poorness.

THE HEART OF THE PROBLEM

As my income elevated, so did my cholesterol. The road of good living runs parallel to a cliff of gluttony. My doctor's preferred method of attack was prescription drugs. I refused because I wanted to fix problems, not mask symptoms.

If you approach wealth like a big pharmaceutical company and attack symptoms while neglecting problems, you will not succeed. Feeling tired? Take this pill. Want to lose weight? Another pill. The problems are ignored while the symptoms are addressed in catatonic cycles. I refused cholesterol medication because it addressed the symptom, not the problem. *The problem is poor diet; cholesterol is the symptom.*

If your car's fuel tank had a small leak, how would you fix it? The symptomatic solver would increase his trips to the gas station to ensure a steady inflow of fuel.
