

won't work," "Someone is already doing it," and "Why bother?" In motivational circles, they call them "dream stealers."

You must turn your back on them. Every entrepreneur has bloviators in their life. Network marketers consider *me* a bloviator. These people are normal obstacles to the Fastlane road trip. Remember, these people have been socially conditioned to believe in the preordained path. They don't know about The Fastlane, nor do they believe it. Anything outside of that box is foreign, and when you talk Fastlane, you may as well be speaking Klingon. As a producer, you are the minority, while consumers are the rest. To be unlike "everyone" (who isn't rich), you (who will be rich) require a strong defense; otherwise, their toxicity infects your mindset. Commiserating with habitual, negative, limited thinkers is treasonous. Uncontrolled, these headwinds lead directly to the couch and the video game console. Yes, the old, "If you hang out with dogs, you get fleas."

This dichotomy makes you a blossoming flower that needs protection, water, and plenty of sun. Negative friends, family, or coworkers are dark clouds. Defend yourself or suffer the consequence of slow assimilation to mediocrity.

ESCAPING ENVIRONMENTAL HEADWINDS

While you might redirect human-originated headwinds, environmental factors aren't so easily controlled. What are environmental headwinds?

For me, it was Chicago. I was seasonally depressed and needed sun for motivation. Chicago was my hurricane force headwind, and if I wanted success, I needed to turn my back. I escaped and moved to one of the sunniest places on the planet. Had I not turned my back to my environmental headwind, this book would not exist. Where would I be today if I hadn't turned my back to the tornado? I know I wouldn't be here, happy, and retired 30 years early. Nope, I'd be on the Kennedy Expressway fighting traffic and strung-out on anti-depressants. I'll pass.

I made a choice to turn my environmental headwind into a tailwind. While I can't blame all my problems on my environment, they enforced this disconnect between "interest" in wealth and "commitment."

Another headwind could be your work environment. If your hated job drains the life out of you, it's a headwind. After a long workday and you have nothing left for your dreams and your Fastlane plan, you're done. The headwind keeps you trapped.

While growing up, one of the successful entrepreneurs I studied was Sylvester Stallone. While Sly is thought to be an actor, he's really an entrepreneur. His *Rocky* screenplay was his product that touched millions, and he sold it under a specific set of circumstances, which included the provision that he had to play the lead role.

Sly was no stranger to the Law of Effectation. One of the telling elements of Sly's success story was his resistance to getting a "normal" job. He mentioned that if he'd taken a corporate job, his dream would have died because he knew the gravity of a
