

HOW TO ACCESS THE LAW

If you want access to the Law of Effectation, drive a road that can break through scale or magnitude while controlling its source. If you can't be the source, serve the source. Thankfully, you can easily determine which roads run parallel to the Law of Effectation. Whatever your road, regardless of roadmap, can it directly scale to impact millions (scale)? Can it tremendously impact a few (magnitude)?

- If you invent a gadget that millions can use, you have direct scale and the Law is accessible. Fast wealth is a possible.
- If you are chosen as a finalist for *American Idol*, you have direct scale and the Law is accessible. Fast wealth is possible.
- If you build a Web site that serves single moms, you have direct scale and the law is accessible. Fast wealth is possible.
- If you are two management positions away from a CFO position at a *Fortune 100* Company, you have indirect scale and the law is accessible. Fast wealth is possible.
- If you are an attorney and take cases that involve wrongful deaths, you have indirect magnitude and the law is accessible. Fast wealth is possible.
- If you create a successful retail store and franchise it to 300 entrepreneurs around the country, you have both scale and magnitude and the law is accessible. Fast wealth is possible.
- If you invent a machine that detects skin cancer, you have magnitude and scale and the law is accessible. Fast wealth is possible.

Think big, but think scale and/or magnitude. Analyze your Fastlane equation and examine the variables. What are your maximum units sold and maximum profit per unit? What is the size of your customer pool? For example, as an author, I have scale, and with scale, the Law of Effectation is accessible. Who is my audience? The whole English-speaking world, tens of millions of people! I'm reminded of scale any time this book is pre-ordered from Australia or New Zealand. My upper limit is the world. My road has no speed limit and that grants access to the Law of Effectation.

CHAPTER SUMMARY: FASTLANE DISTINCTIONS

- Your total pool of customers determines your habitat. The larger the habitat, the greater the potential for wealth.
- A business can be a singles or a home-run-based business. Its strength is determined by scale, which is derived by habitat.
- The Fastlane wealth equation is disarmed when you violate the Commandment of Scale.
