

distress, inconvenience, complaints, problems, and performance gaps. You must attack these challenges and introduce solutions—offer solutions to the masses and I guarantee money will follow! Moral: Solve other people’s problems and you will solve your own money problems!

FAILURE CRACKS ROADS OPEN

Unfortunately, the least-traveled Fastlane roads are paved in failure, not smooth asphalt. This means stalls are guaranteed. *Everyone fails on the road to success.* What separates the winners from the losers is what happens when failure arises. How are you going to react? Will your road trip end with the verdict being, “This Fastlane shit don’t work,” or will you switch roads? Or keep going?

Failures that drive you into new directions are often the most productive forces for invention. The heart pacemaker, microwave ovens, penicillin, and vulcanized rubber are all inventions that are the profound results of failures and accidents. Failure cracked the road open, and in that failure, the inventors had the fortitude to recognize it.

Yes, quitting your road and changing directions is sometimes the best choice. But be mindful of the distinction between “quitting” and “quitting your road.” Quitting is leaving your dreams for dead and putting them into the bin of impossibility. “Quitting your road” is changing course and turning down a new road. If you end your career as a teacher to start a private tutoring company, you have switched roads. If you sell your tanning salon and start an Internet company, you have turned off one road onto another. If you quit that network marketing company and decide to start your own, you have switched roads.

I made many road changes, but I didn’t give up on the dream. If your road doesn’t converge with your dreams, it might be time to quit your road.

CHAPTER SUMMARY: FASTLANE DISTINCTIONS

- Opportunities are rarely about inventing breakthroughs, but about performance gaps, small inconveniences, and pain points.
- Competition should not impede your road. Competition is everywhere, and your objective should be to “do it better.”
- Fastlane success resides in execution, not in the idea.
- The world’s most successful entrepreneurs didn’t have a blockbuster ideas; they just took existing concepts and made them better, or exposed them to more people.
- Opportunity is exposed in your language and your thought processes, as well as other people’s language.
- Failure cracks open new roads.
- Quitting only happens when you give up on your dream.
