

For your business system target, multiply your Gross Living Cost by 5.

$$\text{Business System Target} = (\$14,000 \times 5) = \$70,000/\text{mo.}$$

These are your two targets. First, seek to create a business system that generates \$70,000/month in passive monthly income. Of this income, 40% goes to taxes, 40% goes to fund your money system, and 20% pays your lifestyle. This delivers your target lifestyle AND simultaneously funds your money system. The other target is your passive income from a lump-sum money system. To enjoy your designated lifestyle supported by a money system, your target number is \$5,599,920. Five percent interest on this amount is roughly \$23,000 monthly, which covers lifestyle and taxes.

This dual-flanked attack builds a passive income stream from a business that funds a money system. The result is like warping the destination to you. You can experience retirement without being retired. For example, my Web business routinely earned \$100,000 per month, month after month. Yet, in those instances, I didn't have \$20,000,000 lying around, but the lifestyle was an option because *my business system cash-flowed the equivalent of that lump sum*. Excess income funded my money system. Then, later, I liquidated the asset to arrive at my "money-system" number. If your business system generates passive income, you can use it to fund your lifestyle and your money system simultaneously.

Step 4: Make It Real

Get started today by looking three feet in front of you, not three miles. A long gaze at the mountain crest will overwhelm you, so stop looking at it. The key to achieving enormous tasks is to break them down into their smallest parts. You can't run a 26-mile marathon by focusing on the 26th mile. You attack the first, then the second, third, and so forth.

I see this repeated at the Fastlane forum (TheFastlaneForum.com): "I'd like to make \$5,000/month; how do I do this?" Aside from the flawed "money chasing" logic, the first step is to make \$50/month. You can't make \$5,000 per month until you learn how to make \$50 per month! It's amazing how people love to skip process and want events.

To start your money system, find a quarter and drop it into a coffee can. Congratulations, you are 25 steps closer to your goal. No, I'm not kidding. Your goal isn't 5,600,000 dollars but 560,000,000 pennies. Drop your loose change into your can at the end of each day. Find 60 cents there, 25 cents there, 115 cents there; it adds up and, albeit small, you move closer to your goal daily. Ridiculous? Nope, this is how I started, and yes, I still practice this today because this exercise has three conditioning purposes.

First, when you drop change into your bucket daily, you train yourself to
