

Each roadmap contains key mindsets that act as signposts, or “mindposts,” that provide direction and guide actions, just like a roadmap. Those mindposts are:

Debt Perception: Does debt control you or do you control your debt?

Time Perception: How is your time valued and treated? Abundant? Fleeting? Inconsequential?

Education Perception: What role does education have in your life?

Money Perception: What is money’s role in your life? Is money a tool or a toy? Plentiful or scarce?

Primary Income Source: What is your primary means of creating income?

Primary Wealth Accelerator: How are you accelerating your net worth and creating wealth? Or are you?

Wealth Perception: How do you define wealth?

Wealth Equation: What is your mathematical plan for accumulating wealth? What wealth equation defines the physics of your wealth universe?

Destination: Is there a destination? If so, what does it look like?

Responsibility & Control: Are you in control of your life and your financial plan?

Life Perception: How do you live your life? Do you plan for the future? Forsake today for tomorrow? Or tomorrow for today?

THE ROADMAPS OPERATE WITHIN DISTINCT UNIVERSES

Each roadmap operates under a specific set of mathematical formulas, *the wealth equation* that determines the speed at which you can create wealth. Like Einstein’s $E=MC^2$, these formulas govern your wealth universe much like physics governs our universe. And because physics is bound by mathematical absolutes, so are your equations (and probabilities) to wealth.

The velocity of wealth acceleration evolves from your chosen roadmap’s “universe,” and it is within these universes that your financial plan accelerates or stalls. Think of it as a railroad track, with each track having its own set of speeds, rules,
