

CHAPTER 7

Pulling It All Together

‘A man who has committed a mistake and doesn’t correct it is committing another mistake.’

—Confucius (551 BC–479 BC)

‘Never forget that risk, return, and cost are the three sides of the eternal triangle of investing.’¹

—John C. Bogle, founder of Vanguard, the world’s largest index fund manager

Let us return to our protagonists, Mr Talwar and Mr Sanghvi, and see how the knowledge from the preceding chapters of this book helps them. Essentially, what this book has highlighted is that:

Investing for long periods of time in high-quality portfolios . . .

. . . with a higher weightage to high-quality small-cap companies . . .

. . . while ensuring that you don’t pay too much by way of fees . . .
