

Exhibit 138: Summary of the seventeenth iteration

2016–17*	All-cap CCP	Large-cap CCP	Sensex
CAGR returns	18.2%	22.6%	15.3%
Maximum drawdown**	-15.8%	-15.0%	-11.1%
Excess returns***	0.64	0.98	0.66

Source: Bloomberg, Ambit Capital

Note: *Portfolio kicks off on 1 July 2016.

***Excess returns have been calculated as returns in excess of risk-free rate (assumed to be 8 per cent) divided by absolute maximum drawdown. Maximum drawdown is defined as the maximum drop in cumulative returns from the highest peak to the lowest subsequent trough.

**Maximum drawdown from Sept'16 to Dec'16 for the all-cap CCP, Sept'16 to Dec'16 for large-cap CCP and Sept'16 to Nov'16 for the Sensex.

HDFC Bank, Gruh Finance, LIC Housing Finance, Astral Poly and Cadila Healthcare were the top performers in the period by giving one-year returns of 42 per cent, 59 per cent, 50 per cent, 42 per cent and 61 per cent respectively, while Lupin's value dropped by 32 per cent.
